

WHAT WOULD YOU DO?

60 mins

Group work

Content

Addressing relationship problems while developing mediation strategies

LEARNING OUTCOMES

- development of mediation strategies
- improvement of the learners' ability to give advice on interpersonal problems

LEARNING ACTIVITIES

- review expressions for giving advice
- analyze a written text detailing a relationship problem
- summarize the problem and propose advice
- exchange advice through a spokesperson who moves between groups
- share information gathered with the original group
- engage in a whole-class discussion to share the most interesting problems and advice

TEACHING ACTIVITIES

- monitor progress of classroom and remote learners
- check the accuracy of written summaries and advice given
- assist students in refining their language
- manage the timing and group dynamics throughout the activity

Materials and tools

- texts with various relationship problems
- collaborative shared document for remote students (e.g., OneDrive, Edupad, Padlet)
